List the ways you send announcements to your employees (check all that apply)

E-mail Signage PA announcement Voicemail Face-to-Face

SEND ME CLEAN AIR PARTNER INFORMATION TODAY!

As a partner I want to help combat the problems of air quality and raise environmental awareness. I will make available educational materials and opportunities to my employees.

There are many ways to get the word out and encourage employee participation, such as:

- Sending out e-mail notifications and reminders
- Host an informational session conducted by The TMA Group
- Displaying posters and flyers in high-traffic areas of your office
- Including information packets with paychecks
- Including an article in your company newsletter
- Providing information on your company's intranet
